

Aluminum Coil

Coating Structure:

Aluminum Coil

Specification of Aluminum Coil:

Thickness: 0.2~1.5mm

Width: 600~1850mm

Color: Refer to color card, Or produced according to the customers' requirement

Raw material:

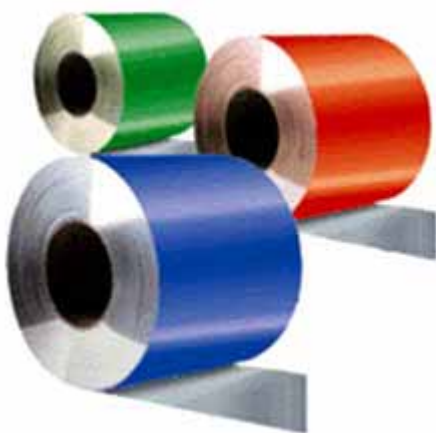

Aluminium: 1100, 3003, 3105, 5005, 5052, from XiNan Aluminum industry and RuiMing aluminum industry in China

Pre-treatment material: Germany HenKel & CHEMTELL from Germany

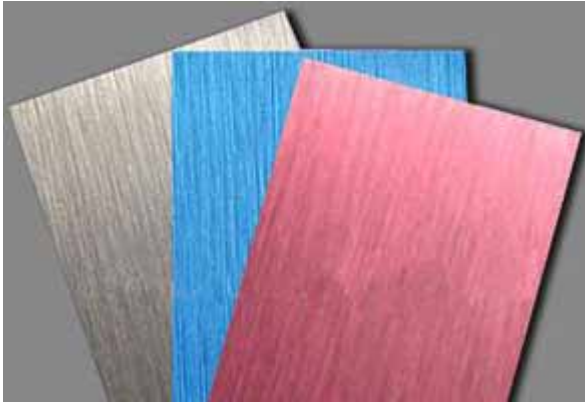

Paint: PVDF(Fluorocarbone), Polyester, from PPG, Becker

Different Kinds of Painting Aluminum Coil

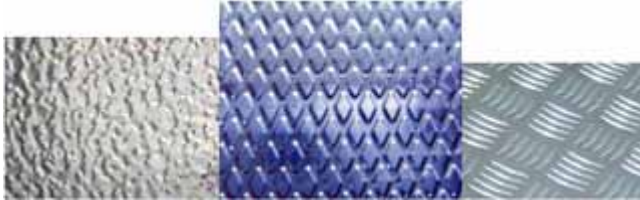

1. PVDF and Polyester Painting Aluminum Coil

2. Brushed Aluminum Coil

3. Empaistic Painting Aluminum Coil

4. Nano Painting Aluminum Coil
